 GitHub |  LinkedIn |  phaniteja2511@gmail.com |  +91 8341134293

Summary

Motivated B.Tech student specializing in Artificial Intelligence and Data Science with hands-on experience in full-stack development, AI applications, and data engineering. Skilled in developing scalable web applications, machine learning solutions, and intelligent systems through academic projects and hackathons.

Education

2023 – Present	B.Tech in Artificial Intelligence and Data Science , KLH University	CGPA: 9.34
2021 – 2023	Class XII , Venus Junior College	Marks: 949/1000
2020 – 2021	Class X , Pace NR Olympiad School	Marks: 593/600

Technical Skills

Programming Languages	Python, Java, JavaScript
Web Development	React.js, Node.js, Express.js, Django, MERN Stack
AI & Data Science	Machine Learning, Deep Learning, NLP, Generative AI
Databases & Tools	MongoDB, SQL, TensorFlow, Git, GitHub
Core Concepts	ETL Pipelines, REST APIs, Data Structures

Projects

Spend Smart – AI Expense Management System — MERN Stack, Chart.js, MongoDB

- Developed a MERN stack expense tracking application with secure user authentication and real-time budget monitoring.
- Implemented budget allocation and interactive dashboards using Chart.js.
- Built a financial chatbot for budgeting, savings, and debt management suggestions.

Online Multi-Service Booking Website — Django, SQLite, HTML, CSS

- Developed a Django-based booking platform for hotels, restaurants, and movie tickets.
- Implemented user authentication, booking management, and confirmation systems.

FarmBoy – AI Chatbot for Crop Disease Identification — YOLOv5, Deep Learning, NLP

- Developed a multilingual AI chatbot supporting Telugu, Hindi, Tamil, and English.
- Implemented crop disease detection using YOLOv5 and deep learning models.
- Provided disease treatment suggestions for farmers.

AI-Powered Campus Assistant — React, TypeScript, Supabase, AI APIs, NLP

- Developed a domain-specific AI chatbot to assist students with university-related queries including admissions, courses, fees, academics, and placements.
- Implemented a hybrid response architecture combining a structured knowledge base with AI-generated responses for accurate and context-aware assistance.
- Built a responsive and user-friendly chat interface with secure authentication and persistent conversation history using Supabase.
- Integrated speech-to-text and text-to-speech functionalities to improve accessibility and enhance user interaction.

Certifications

- GitHub Foundations Certification
- Automation Anywhere Certified Advanced RPA Professional (Automation 360) – Level 1

Achievements

- **Impactech Hackathon 2025 – 2nd Place**
 - Developed “FarmBoy”, an AI-powered multilingual chatbot for crop disease identification.
 - Recognized for innovation and real-world agricultural impact.
